## WORLD TRANSFORMATION MOVEMENT

12/13/2010

By [James Parker](#)

I'm always looking to expand my thinking. I recently recieved a blog suggestion to check out a website. Wow! I was moved. You have to be open minded to even accept what is being said, because it is outside the box but it is logical. There are a set of videos I wanted to put on this site but they were just too big. I recommend everyone to at least experience what is being said. Definetely a must see!
