Phenomenal read!
It's a must have if you believe in the Global Awakening of the Collective!

It's not about a book Tony, and it's definitely not a religious group or a bunch of happy clappers. The book (which is free ... this is not a money making exercise) explains human behavior and mass psychology in such a simple and profound way that it can literally change your life. That's a big call I know and you are right to be sceptical at first glance. But the explanation and the understanding of the Human Condition stands up to any criticism and is really groundbreaking stuff. I would openly criticise it if I could do so credibly
