World Transformation Movement

We are entering end game: a world of terrorism, refugee crises, corrupted economies, ecological devastation and epidemic levels of family breakdown and mental illness. Only the deeper, reconciling, psychologically healing understanding of our 'good and evil'-conflicted human condition can save us. THAT IS WHAT THIS BOOK PROVIDES: the 11th hour breakthrough biological insight needed to end suffer... [See More](#)

Michael Everett I did not need to be convinced. These truths are valid and make perfect sense. I understood from page one, word one. It is then the uneasiness within is explained. And, it isn't my fault! Or anyone else's!!!! That is freedom....a clear path to healing. Finally.

Diane Boucher THE ULTIMATE LEVEL OF TRANSCENDENCE - AT LAST. Wow, yippee - we do have reason to be joyous. I've been doing a lot of "spiritual" seeking and practicing through out my life span including mind power, which I may add is extremely lacking indeed, emotional and spiritual intelligence courses, all the levels you could possible perceive and thought that would all assist with "wisdom". Well, well, well, finally someone who could not only explain but prove what the "missing link" is. I actually feel saying "god" bless you, or universal blessings to you Jeremy is a major understatement. I'm afraid a simple but heart felt very big THANK YOU will have to suffice. Thank you for all your work and above all, all the sacrifices and drama, to say the least, you have had to endure. Wishing you every thing of the very, very best. I am most grateful to you and soon the entire world will be, over time that is. I must say I never thought that science, of all all industries, would be the industry to produce a man, not just any man, but a kind caring loving biologist very thoughtful, selfless and much, much more, would come up with the ABSOLUTE SOLUTION to ending pain, suffering, selfishness, poverty, hate, war etc., and . . . who would lead us to Navana. I could go on and on, but enough for now Jeremy's head might get big (LOL) (laugh out loud) in case there's some unfamiliar with South African slang. Until next time.
